BLACK

RESTAURANT

WHAT IS A JOSPER GRILOVEN?

All our main courses are prepared in a robust charcoal grill “DE JOSPER”: A closed barbecue, fired on charcoal.

When fully closed, the oven reaches temperatures of up to 400°C! The noble wood and the perfectly adjustable flow of hot air provide a unique taste, smell and texture.

Every piece of meat, fish, poultry and as well as vegetables is seared, roasted and provided with a characteristic smoky flavor at the same time. This provides the authentic texture and juiciness to your dish.

And you can taste it!

Do you have an allergy? Let us know!
